

logger.Logger.config

```
graph LR; A[logger.Logger.config] --> B[logger.Logger.is_valid_encoding]
```

A diagram showing a dependency. On the left, a gray rectangular box contains the text 'logger.Logger.config'. A blue arrow points from the right side of this box to the left side of a white rectangular box on the right. The white box contains the text 'logger.Logger.is\_valid\_encoding'.

logger.Logger.is\_valid  
\_encoding
